LUH-BOX

surface or recessed backbox for Unihorn™

White stainless steel backbox with four inch depth is for recessed or wall surface installation of AVLELEC Unihorn model LUH-15T or LUH-15Ti in schools, warehouses and similar venues.

Features

- 10.5" square x 4" deep
- A wide variety of rear mounting holes to allow it to be mounted to a 1-gang, 2-gang, 4" square, or octagon E.O. box (not included).
- Four (4) additional ¼" holes are included to allow the box to be mounted directly to a wall.
- Mounting hardware furnished by the installer.
- Precision-formed from 20-gauge stainless steel, welded seams, white powder epoxy finish.
- Made in the U.S.A. with certified U.S. steel construction

A&E Specifications

The surface-mount / recessed backbox shall be AVLELEC Model LUH-BOX, which shall be fabricated of 20-gauge stainless steel. The rear of the backbox shall include provisions to mount to a 1-gang, 2-gang, 4" square, or octagon E.O. box (not included). The backbox shall feature four (4) additional ¼" holes to allow the box to be mounted directly to a wall. The backbox shall measure 10.5" square x 4" deep and have a white powder epoxy finish.

Compatible Components (order separately)

- AVLELEC Unihorn model LUH-15T or LUH-15Ti
